COST: \$395/\$325 EARLY BIRD DISCOUNT BY MARCH 1ST

Sound and music are powerful energies that weave in, around and through our physical selves. The experience of vibration (sound in motion) has the power to positively transform every area of our lives—health, finance, creative flow, relationships, vocal/musical expression and best of all a prolonged internalized sense of happiness, ease, and wellbeing. Come learn with three lifelong Masters of Music, Movement and Transformation and discover the expanding possibilities of the most potent instruments you can play: you!
